Dear Sirs,

IMAPS (International Microelectronics & Packaging Society) India Chapter is organizing an International Conference, Emerging Microelectronics and Interconnection Technology, EMIT-08 from December 15-18, 2008. The Conference will be held at National Institute of Advanced Studies (NIAS) located at Indian Institute of Science (IISc) campus, Bangalore.

About 800 delegates including 300 personnel from abroad are expected to participate. Many of them are from other IMAPS chapters of Australia, Belgium, China, Taiwan, Europe, Japan, Korea, Nordic, Singapore, United Kingdom, U.S.A. Apart from Conference, we are holding a Workshop, Exhibition and Business meet. Please see Brochure on first call for Papers. Also we are bringing out a Souvenir, which we are planning to make in the form of a fully indexed directory. A sample page of proposed directory and call for paper in in our Website.www.imapsindia.org. The directory is proposed to be a give away to all delegates. The charges per page of advertisement/Information about your company is Rs.3,000/-

Looking for your support in the form of your inputs for this by 30th October 2008 at imapsind@vsnl.com.

The payments are to be made by way of Demand draft/Crossed cheque, in favor of IMAPS India Chapter ®, Bangalore, EMIT - 08. Payable at Bangalore.

Yours sincerely,

Sd/-

B.N.Baliga

Chairman

National Organizing Committee

EMIT-08 IMAPS

Bay-Forge, a subsidiary of the renowned Fomas Group of Italy, has grown to be an undisputed leader in the realm of open die forgings and large seamless rings in India. Since its inception in 1996, it is a pioneer in large volume critical forging and ring rolling. At Bay-Forge, quality and innovation have always been the watchwords.

Bay-Forge has state-of-the-art high capacity precision equipment for forging, rolling, heat treatment, cutting, machining and so on, which facilitate any of the challenging jobs entrusted to it with precision and ease.

B-FL is associated with ISRO's space programmes. Bay-Forge is supplying seamless rings in Aluminium, Titanium and MDN 250 materials required for PSLV and GSLV satellite launch vehicles. Bay-Forge is also supplying rings and forgings for the next generation launch vehicle GSLV Mk III.
